**ADESIJUOLA OGUNJOBI'S RESPONSE TO ORDER TO DENY IN
FORMA PAUPERIS**

On January 21, 2021, an order signed by Richard Seeborg deny my application to proceed In Forma Pauperis to proceed in appeals court was denied. This response is not about the denial, the language adopted by the order which no surprise it validated Richard Seeborg's racism and deep hatred of a black person. This is not a race card, as a black man, my obligation

is to expose bigotry and racism. I have vowed I will not tolerate any bigotry from any white individual, period.

Richard Seeborg stated I am engaging in “fantasy” regarding Toks’\$100 Quadrillion (global transaction), but what he failed to mention is “Quadrillion” is not a fantasy, it is part of numerical elements of Arithmetic invalidating “Quadrillion” is a fantasy.

The order also stated the COVID-19 challenge is also a fantasy which is funny because the real interpretation of COVID-19 is DELUSION. This is the first time ever in the history of this universe “immortal humans” has been declared and replaced “mortality.” The COVID-19 scammers (with followers like Richard Seeborg and his goons) are now preaching “immortality” is the norm. Anybody that dies is not human, lock people up, promise them vaccines to keep them alive forever because humans are now “immortal” and those dying are not human.

WRONG!!!! Every human has the GOD’s giving RIGHT to DIE. It is inherent in our existence. The delusion Richard Seeborg is exhibiting is classic precedent of “cult.” COVID-19 is a global “cult” and cult members like Richard Seeborg abhor any form of challenge to their COVID-19 cult which is the same as COVID-19 scam. This is nothing new.

The In Forma Pauperis here is not about defrauding the court, it is to demonstrate this is not a frivolous motion which has been appealed. Richard Seeborg continues to use his position to defraud Government, public as if the motion has no merit, including the challenge to COVID-19 scam and finally Toks’ \$100 Quadrillion al stock tax free global transaction.

Adesijuola Ogunjobi, Plaintiff-Intervenor will not dignify Richard Seeborg’s cowardice which he continues to demonstrate anytime he sees my name as if I owe him something. [I] don’t owe Richard Seeborg anything, period. My right to be in this court is protected under the rule of

law and Constitution of the United States which afforded the filing of Notice of Appeal and whatever the outcome, everybody will have to abide by it.

Richard Seeborg can always resign his post as a judge and defend the Defendants sued to challenge COVID-19 scam. COVID-19 is a scam and will remain a scam until all parties have the opportunity to prosecute the challenge. Richard Seeborg thinks the court is for the privilege or few, that's his problem.

This COVID-19 scam is actually "reverse placebo" because the interpretation of "placebo" according to such study is giving patients with terminal illness like cancer medication with no active ingredients and instructing them to take such medication at prescribed time frame and the results is the patients actually felt better. But COVID-19 scam "placebo" is the opposite where the COVID-19 scammers have planted the bogus virus into people's mind they got something and now take this vaccine to feel better or protect you but not cured because the COVID-19 scammers have informed their "victims" ("suckers") COVID-19 will be here forever so they can make all their trillions forever.

This is to address the tragedy and huge irony here. A father shot dead his son and himself in a murder-suicide regarding his opposition to get his son vaccinated with COVID-19 scam vaccine. Where did this take place? In San Francisco. It looks like that's not a fantasy.

California has suspended some COVID-19 vaccines due to people developing severe reactions including 13 people dead after taking COVID-19 scam vaccines. Just I like predicted in my filings with appeals court in Virginia there would be COVID-19 atrocities. The genocides will soon show up because the governments across the globe will be forcing people to take COVID-19 scam vaccines which the irony is the very "fantasy" to prevent death is actually will

contribute to that very death like the doctor in Miami that died weeks after taking COVID-19 vaccine.

Another funny irony is a huge office building of largest COVID-19 scam vaccine manufacturer caught fire and 5 employees confirmed dead not from COVID-19, but from fire. Hilarious beyond hilarious. Welcome to the real world Richard Seeborg, everybody dies. Richard Seeborg, they're waiting for you upstairs, you're the one with the fantasy of "immortality" and those folks upstairs don't need any permission when they want their life back validating this is a "borrowed life."

Finally, like I stated in my filings with United States District Court Eastern District of Virginia Richmond Division that no one has submitted evidence COVID-19 is real. "Sickness" and "Death" do not constitute evidence of COVID-19 is real because people are bound to get sick and die which it is daily occurrence since day one. Just like order signed by Richard Seeborg calling the challenge of COVID-19 a fantasy never submitted any shred of evidence COVID-19 is not a scam.

This response is filed to educate the public the motion for intervention is actually a "legal contract" to buy the assets for \$2.5 billion in cash. I owe the public the facts because Richard Seeborg will use his position to engage in total misconception disguising it as rule of law.
